**Brendan Daly Honored With Donald D. Myers Scholarship
In Recognition Of
His Service to the Community and Missouri S&T Campus**

[Rolla, MO, April 19, 2016] – Brendan Daly, a senior at the Missouri University of Science & Technology, has been awarded the Donald D. Myers Scholarship in recognition of his extraordinary service to the community and campus.

Daly was presented with the award for the 2016-2017 school year at Missouri S&T's annual student leaders' awards at the Havener Center last night.

"Brendan was selected because of the meaningful impact he has made through his service, his ability to lead and inspire others, and his continued commitment to serve." said Tina Reagan, Student Services Advisor for Student Life.

At Missouri S&T Daly has worked tirelessly to organize regular "Be the Match" bone marrow drives on campus, and to inspire over 260 students, faculty, and staff to register as potentially life-saving donors. By developing strategic partnerships with student organizations and recruiting and training new volunteers, Daly has increased the capacity of the university to help meet a critical need in the community.

Dr. Myers was a beloved professor of engineering management at Missouri S&T for over 30 years. The Donald D. Myers Scholarship, established in 2009 by his family with the generous contributions of his many friends, is an annual tribute to his extraordinary life of service.

The purpose of the scholarship is to recognize and support Missouri S&T students who have made a significant contribution to the community or campus through their service.
