Missouri University of Science & Technology
Recognized Student Organization Risk Management Compliance Form

It is the goal of Student Life to support your organization’s activities by ensuring that leaders are well informed of guidelines and procedures designed to minimize potential risk associated with events. Each semester, a risk management seminar is provided that requires the participation of the president and one officer of every student organization. These sessions provide advisement and education regarding guidelines, policies and standards of conduct that your organization is expected to adhere to.

If your organization serves, provides or allows alcohol at events, whether on or off campus, you are required to do the following:

☐ Complete the Student Alcohol Responsibility Training online [http://www.startcollegeservertraining.com/](http://www.startcollegeservertraining.com/) by 9/8/12; it is not necessary to print the certificate. Scores will be verified electronically by Student Life.
☐ Attend the risk management session for organizations that allow alcohol at events; the session will be held on 9/8/12 during the Officers’ Summit.
☐ Return this completed form with signatures to Student Life (218 Havener) by 9/8/12; forms will be accepted at the Officers’ Summit.

If your organization does NOT serve, provide or allow alcohol at events, you may claim exemption from the above requirements and complete the following:

☐ Attend the risk management session for organizations that prohibit alcohol at events; session will be held on 9/8/12 during the Officers’ Summit.
☐ Return this completed form with signatures to Student Life by 9/8/12; forms will be accepted at the Officers’ Summit.

To be completed by the current student organization president and advisor by September 8, 2012:

Name of Organization: __________________________________________

_________________________________________________________
Organization President (Print)

_________________________________________________________
