### Greek Academy:

1. The New Member Education track is series of developmental programming targeting newly initiated members of our community. Ran by the Greek Captains, older Greeks who serve as mentors who are interviewed and trained, the new members will learn about campus policies, resources, leaving a legacy, and have the ability to connect with both peers and upperclassmen in the community.

2. The Officer Development track consists of two main seminar blocks which will host sessions targeting specific officer positions within the chapter. These positions include, but are not limited to: President, Vice President, Risk Manager, House Manager, Treasurer, Public Relations, etc. One main goal for these sessions is that they are hosted by *non-campus* professionals.

That being said, the OFSL would like to strongly encourage Alumni/Advisor participation for this event. If there are session ideas that you feel would be beneficial to our chapter officers, or if you would like to host a sessions yourself, please feel free to contact the OFSL.
