Mentoring Makes a Difference is a service group that makes a difference in the Rolla Public School District. Missouri S&T students dedicate one hour a week to mentor a student at either an elementary school or the middle school in Rolla. Once a week the mentor goes to the school they are assigned and helps that student with various homework assignments. The mentor and mentee spend about 30 to 45 minutes on homework or reading a library book and then play outside or in the gym for the remainder of the time. This excellent program is changing the lives of some young students by demonstrating the importance of education at a young age. And for the mentors, it is a nice stress reliever to step away from the books and hang out with some awesome kids! If you are interested in becoming part of the mentoring makes a difference program please email Kathy Heflin.

Spring Career Fair:
Sign up to volunteer at the Spring Career Fair on February 21, 2017! This is a great way to network with different employers while displaying your interest in community service. Register now by clicking HERE!

Standing Rock:
S&T students are heading to Standing Rock to help our people protect our water. Consider this post an invite and encouragement to join. David Karayof is organizing a team at ISU and we have agreed to join forces. This group needs donations and any are appreciated. We are accepting food, water, clothing and other winter gear. If you wish to donate your money visit David’s donation page: GO FUND ME.
